

Wood

March 11, 2015
Redondo Beach, CA

- I. Call to Order, Review of Anti-trust Statement; Minutes from last meeting
 - a. Minutes were read and approved as written
- II. Added: UV guitar for promotion at an event
 - a. Brian Cavitt has been working on the design and construction of 3 guitars for promotional use at an event
 - b. The 3 guitars would be based on UV curable technology trying to touch on as many areas as possible (e.g. UV-LED, 3D printing, E-beam, etc.)
 - c. There are some needs for the guitar
 - i. Akzo Nobel committed to provide UV curable stain
 - ii. John Arnold committed to reaching out to Paul Smith guitars for some possible collaboration
 - iii. Usage of a 3D curable chamber or oven is being requested to all RadTech members. If you are willing to donate a little time to coat and cure the guitar that would be awesome. John Arnold said Miltec might be able to come up with something or someone.
- III. GreenBuild/UV Technology and credits
 - a. Credits for UV curable technologies currently fall into 2 categories for GreenBuild: 1) Operations and Maintenance and 2) Building Demolition and Construction
 - b. O&M: Changing from mercury lamps to lamps that contain less than 70 pg of mercury per lumen hour would classify for 1 credit
 - c. O&M: Reduction of water usage could count as high as 5 points for a total facility. In this case, moving from water cooled lamps to air cooled lamps would qualify the user for credits based on the amount of water that was saved, yearly.
 - d. BDC: Low emitting VOC coatings and paints that minimize air contaminant can qualify for 1-3 points for the total structure
 - e. Carbon offset materials can be used to qualify for points likely 1-2
- IV. UV/EB Sustainability—topics of interest
 - a. More discussion needs to occur on possible Sustainability topics

V. Participation in Other Events

- a. Potential Session at the "INTERNATIONAL FIBER/WOOD-BASED PANELS CONFERENCE 2015," Chicago, November 11-12, 2015
- b. Group requested more information
- c. Al-Gary Cohen to contact and find out more information and disseminate to the Wood Group

VI. SCAQMD Update

- a. Rumblyings of lower VOC's for wood coatings is being heard
- b. SCAQMD has adopted Low vapor pressure VOC regulations
 - i. May impact low vapor pressure UV/EB products
- c. California is trying to go Green House Gas neutral in the energy sector
- d. \$200 million in tax credits are earmarked in CA for business that want to expand in CA or move to CA
- e. Odor control may be next topic in CA
- f. UV/EB Resolution is being considered to be drafted for adoption in CA

VII. Development of RadTech UV/EB Wood Guide. Potential authors/topics

- a. Discussion occurred on constructing a wood guide
- b. The Discussion changed to updating the UV/EB Primer
- c. Josh Lensbouer will take on the task of updating the primer for the 2015 Chicago Show
- d. Brian Cavitt volunteered to help
- e. Gary Sigel offered to review and edit
- f. John Arnold said he would be willing to be involved as well

VIII. Other Business

- a. none

VIII. Adjourn
